## CONFERENCE

# ISLAMIC FINANCE VS. ETHICAL FINANCE ARE THEY TRULY SIMILAR?

In the context of the "What is Out There?" Competition, SCIEF (Saudi-Spanish Center for Islamic Economics and Finance) is organizing a conference to explore the similarities and differences between Islamic and ethical finance. This conference will explore some of the ethical issues surrounding finance and investment.

**Islamic Finance has grown rapidly in the recent years, from about USD200 billion in 2003 to an estimated USD 2 trillion at the end of 2015.** Anyhow, it is an almost unknown industry in Europe.

In this conference, we want to show you a different perspective on how finance and investment can be developed, and also get involved in promoting the financial innovation and the positive use of financial resources.
